

Another LED Certified Site for Ascension Parish.

April 7, 2014

Mr. Jim Cavanaugh
Site Development Director
Baton Rouge Area Chamber (BRAC)
564 Laurel St.
Baton Rouge, LA 70801

Jim:

The Waterloo Site (located near Geismar, LA), as specifically identified in the LED certified sites application, has satisfied all requirements of the Louisiana Economic Development Certified Sites Program, and as such has been designated an LED Certified Site. This letter serves as verification that The Baton Rouge Area Chamber has performed proper due diligence regarding legal control of the property for possible sale and/or lease, zoning restrictions, surveys, title work, environmental studies, soils analysis, and public infrastructure engineering.

The required application and supporting documentation passed a rigorous review process by Louisiana Economic Development and URS, an independent third party engineering firm, and was certified as development ready on this date.

This notification authorizes The Baton Rouge Area Chamber and all appropriate partners to attach the official LED Certified Sites logo to site-related collateral, signage, and Internet listings related to The Waterloo Site.

A handwritten signature in black ink that reads "Larry Henson". The signature is written in a cursive, flowing style.

Larry Henson, CCR
Director of Business Intelligence
Louisiana Economic Development

Disclaimer: Certification by LED is not a guarantee that a development on this site will be completed within 180 days.

We are very proud to announce that Ascension adds a fourth property to its growing list of Certified Economic Development Sites. Please see the attached letter regarding the Waterloo site.
