

Market Access

Ascension Parish's strategic location to the Gulf of Mexico and South America along with its multi-modal transportation network, position it as a location for opportunity in the southern U.S. for nearly any type of operation.

- 3 deepwater ports on the great Mississippi River including one of the world's leading container ports
- 3 Class I railroads
- 4 interstates within a 45-mile radius
- International airline service in Baton Rouge and New Orleans
- [South Louisiana Ports](#)
- Inland Water System
- Freight Delivery Time
- Rail Delivery Time

Rail Service

Canadian National, Kansas City Southern and Union Pacific currently operate routes in Ascension Parish with connections throughout the southern United States. Among the U.S. Class I railroads, KCS has the shortest route between Kansas City, the

second largest rail hub in the country, and the Gulf of Mexico. KCS also boasts the Meridian Speedway from Dallas, Texas to Meridian, Mississippi, which is the fastest-growing and least-congested east west route in the country. Canadian National serves the chemical industry in the parish and surrounding region, shipping product to Mexico, Houston, Dallas, Atlanta, and into the northeast.
